SS Michael and Peter JNS*

12.45pm- 1:00pm A.G.M. (prizes/draw)

WORKSHOP INFORMATION

1. *Virtual Orienteering for Primary PE*

Liam Clohessy

This online workshop will introduce participants to virtual orienteering as a means of enhancing pupils' map skills within primary PE. Participants will also explore how digital technology can be integrated within traditional orienteering as a means of enhancing motivation and to support non-contact orienteering in the current times.

2. *Geocaching and Other Apps Enhancing Learning Outdoors*

Tony Sweeney

Geocaching is a real world global treasure hunt using GPS in the outdoors. This session will look at the cross curricular learning potential of this and some other recent applications. Bring your phone or device and get ready to get hunting!

3. *Let's Go Outside!*

Pete Lavin, Claire Heffernan, Susie Griffiths

A workshop with three areas of interest:

1. **European Schools Sports Day:** This section will explore a variety of fun co-operative challenges and team events suitable for all levels which can be used for ESSD in September 2021 and also for any school sports day. The various activities shown will use minimal equipment, making it easy for both face to face and remote teaching
2. **PE Xpo:** This section will share some PE Xpo primary school PE programmes of work incorporating sample diary entries by children documenting their learning with the head, heart and hands
3. **Creative Walkways:** This section will demonstrate how to create and utilise an established walkway around your school grounds to support 'walking' strand unit of the curriculum, incorporating cross-curricular aspects. Focus on creative approach using example of a Fairy Trail in a Junior School

CONFERENCE FEE: €15 Students €5
(includes an IPPEA snood and conference notes)
